

Bernina Embroidery Software Version 9 Classes Supply List

- ❖ Laptop with Version 9 installed – be sure to bring your power cord. If you bring a mouse, it's recommended it be a corded one (not wireless).
- ❖ There are two sessions offered.
 - If you have **Creator** level software, you should be enrolled in Session 1 only. See workbook listed below for session 1.
 - If you have **Designer Plus** level software, you should be enrolled in both Session 1 & 2. You will need to download **both** workbooks listed below.
- ❖ For session 1, you will need the Bernina Embroidery Software 9 Creator Workbook. The first session is intended to help the student navigate through the software, perform basic editing, and use the automatic digitizing functions and applique features of Version 9.
- ❖ For session 2, you will need the Bernina Embroidery Software 9 Designer Plus Workbook. The second session introduces features that are unique to Designer Plus level of software. This includes advanced editing tools, manual digitizing, keyboard design collections, advanced applique, special effects and the software's application programs: Quilter and Cross Stitch.
- ❖ Paper and pen for notes.

TO DOWNLOAD WORKBOOKS: Links to the BERNINA Workbook PDF files are located on our website (www.annarborsewing.com). From our home page, select "Additional Info", and from the choices that appear,

select “Bernina Education Materials”. Scroll down to find the Software section and you’ll see the “Bernina Embroidery Software 9 Creator Workbook” and the “Bernina Embroidery Software 9 Designer Plus Workbook”. For each file you need, click and you’ll be taken to Bernina USA website. Download button is on right side of page. Save the required Workbook to your computer and print. Alternatively, you can download them to a tablet and bring that as well as your laptop to class.
