

Original

Welcome to Our Home Supply List
(machine embroidery project)

Pattern: Welcome to our home by Janine Babich. Spring, Autumn or Winter versions are acceptable. The process is similar for all.

Shopping List: Follow the list provided on the back of the pattern.

Additional Supplies: Embroidery machine in good working order.

5X7 or next larger hoop *and plastic template*

Basic sewing/embroidery supplies

Small curved embroidery scissors

Frixion marking pen or chalk pencil if fabric is dark

Thread to match fabrics

Bottom Line thread for bobbins

80/12 sharps or embroidery needles

paper tape *& straight pins*

*Note – I prefer to starch all my fabric and let it air dry before pressing and cutting. The crispness of the fabric provides a good foundation for embroidery.
(Best press, Terial magic or other basic spray starch will work)

*Prior to class – Cut the $\frac{3}{4}$ yd. Background fabric as directed in the pattern.
Fuse the fusible fleece to the reverse (back) of each rectangle cut as directed in the pattern.

*This will allow more time to work on the actual project. :)

Thank you for joining me! Let's have some embroidery fun!

Pam
